

## 2025 Expected Plant Availability (updated April 2025)

Our seed is sourced from the Adelaide Hills and Barossa (Out of provenance species other parts of SA). Other SA species and provenances may be ordered if own seed is supplied.

If requiring difficult to propagate species and/or 25 or more of a species please place an order (preferably the year before) so you are not disappointed at our Plant Sales (first weekend of June, July and August). Ordered plants will be ready for collection late May-June.

Price Categories (refer to 2025 Season Price List).

● black tubes : standard tubestock

● green tubes : cutting grown or difficult to collect seed and/or propagate

● orange tubes : very difficult to collect seed and/or propagate
