

# *Cullen australasicum*

## Tall Scurf-pea

*Papilio demoleus*

Chequered Swallowtail Butterfly  
(Butterfly Conservation SA)

An open small-medium sized shrub with lilac pea-flowers which appear in spring to early summer on long spikes above the leaves. Leaves have saw-toothed margins and are grouped in 3s.

Cullen is a nectar source for Long-tailed Pea-blue butterflies and a caterpillar food plant for Long-tailed Pea-blue, Chequered Swallowtail and Common Grass-blue butterflies.
